

OVERLINE

ITALIA

RESOLUTION

WARM

The **warmth** redefines the silhouette

NEW SYSTEM PULSED MODE

Reshaped body, toned, compact, hydrated and regenerated skin, because looking good and feeling good are essentials. élite Resolution Warm uses the properties of warmth to fight signs of cellulite, fat and sagging skin, whilst wrapping the client in a warm and comfortable embrace. élite Resolution Warm works with advanced Radiofrequency, Infrared and Electro-stimulation, 3 effective body slimming technologies which can be used either separately or in synergy.

Elite Resolution Warm is technological and innovative. The easy work system makes the usage of the device extremely intuitive, and it can be handled by the touch monitor, the control set up, the graphics employed to display images and demo clips. A Memory Card is available, in order to record the data of the customized treatment, becoming a reliable customer data sheet. The shelves and accessories compartments are practical and solve space problems.

INFRARED

Reducing Action

One of the best methods for transmission of heat is infrared radiation. The treatment pleasantly warms the area, penetrating into adipose tissue, stimulating metabolism and allowing the expulsion of toxins and fatty acids. Infrared LEDs amplify the frequency spectrum of the infrared band itself, intensifying the effect of warmth and generating a pleasant relaxing sensation. LED red lights were meticulously selected to meet customer's safety and comfort requirements.

LIGHT INFRARED

Reducing Action

The LED lights, inside the bands for Infrared, expand the heat and generate a pleasant feeling of relaxation. The red LEDs have been selected ad hoc to meet the customer's needs for security and comfort.

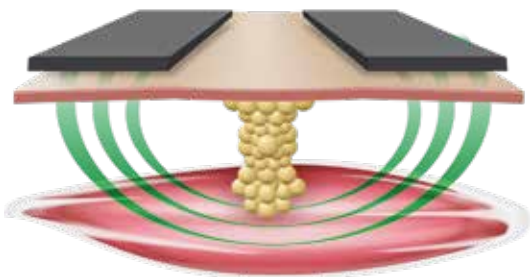

NEW SYSTEM

PULSED MODE

Ultra Reducing Action

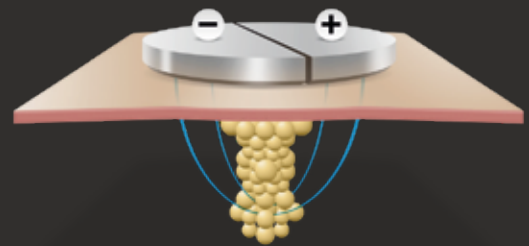

Scientific studies have shown that the pulsed mode of light (led) at precise frequencies generates a stimulation of collagen production, traveling more deeply into tissues.

ELECTRO SCULPTING

Tonifying Action

Warm's Electrostimulation was conceived by Overline as a pleasant as well as effective treatment. It is based on a pioneering form of electrolipolytic wave which allows a very gentle stimulation of muscle fibers. This technology generates physiological contractions which contribute to body toning and to the reduction of cellulite.

RADIOFREQUENCY

Firming Action

The bio-physical effect of Radiofrequency is based on the transformation of energy into heat. Increases local metabolism, speeds up blood flow in the microcirculation, eliminates fluid retention in the capillaries, frees the interstitial tissue from the oedematous obstruction, restores the temperature necessary to restart lipolysis, interrupts the fibrotic reaction of the subcutaneous tissue, reduces sagging skin and the effects of cellulite blemishes.

TOUCH SCREEN 10" LCD DISPLAY

CAPILLARY CONSULTATION OF PROGRAMS AND TREATMENTS

It allows you to view programs, customer data, parameters and work paths ensuring a widespread consultation of treatments and all functions.

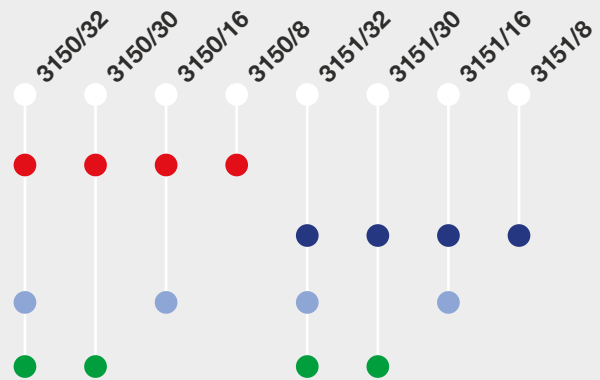

Targeted Synergies

**MULTIPLE SOLUTIONS TO MEET THE NEEDS OF EACH OPERATOR
WITH THESE TECHNOLOGIES THERE ARE 8 DIFFERENT EQUIPMENT**

- Code
- Light Infrared
- Infrared
- Radiofrequency
- Electrosculpting

Optional

cod. 9012 - Elettrodi in Silicone • cod. 9045 Fascia in para (varie misure)

BANDAGES

Apply the specific **iSol** Bandage according to the blemish to be treated, wrap starting from the ankle or from the knee trying not to leave uncovered spaces.

ELECTRO-SCULPTING

Apply the conductive rubber electrodes following the positioning schemes indicated in the manual.

cod. 9435 Panta Presso

PLASTIC TROUSERS

Make the client wear the plastic trousers in order to protect the infrared bands from the cosmetic product.

SLIMBAND

At this point wrap the *Slimbands*, previously prepared on the couch.

code 9570 Slimband Thigh • code 9575 Slimband Arm • code 9580 Slimband Abdomen

code 9571 Slimband Thigh • code 9576 Slimband Arm • code 9581 Slimband Abdomen

PROGRAM

Activate the selected program and adjust the parameters based on the customer's tolerance.

LED LIGHTS

The LED lights, inside the new Slimband bands for Infrared, widen the frequency spectrum of the bands themselves, enhancing the effect of heat and generating a pleasant feeling of relaxation.

cod. 9034-3 Multipolar handpiece

cod. 9034-2 Bipolar handpiece

MULTIPOLAR RF

The device equipped with multipolar Radiofrequency handpiece allows a greater definition of the treatment concentrating on the localized adiposities.

BIPOLAR RF

The device equipped with a bipolar Radiofrequency handpiece allows a greater definition of the treatment, favoring elasticity and tissue tonicity.
